

# San Marcos Growers Field Day 2019

## Succulent Display

- Aeonium arboreum 'Electra'** - Purple Pinwheel Aeonium Succulent w/uniform heads of purple leaves on 1-2' tall stems & yellow summer flowers. Full/part sun. Well drained soil. Drought tolerant. Hardy to 28F.
- Aeonium arboreum 'Zwartkop'** - Black Rose Aeonium Succulent w/black-purple foliage on 3-4' tall stems & yellow flowers in summer. Part sun. Well drained soil. Drought tolerant. Hardy to 28 degrees F.
- Aeonium 'Blushing Beauty'** - Blushing Aeonium Succulent w/red tinged green leaves in rosettes on 1-2' tall stems. Plant in full sun in well drained soil. Irrigate occasionally. Hardy to 25-30F.
- Aeonium 'Carol'** Succulent to 18" tall with red tinged green leaves in flat rosettes. Plant in full coastal sun to light shade. Occasional water. Hardy to 28 degrees F
- Aeonium castello-paivae 'Suncup'** Small subshrub to 1' tall w/rosettes of pale green leaves splashed w/white & spring white flowers. Cool sun/bright shade. Little H2O. Hardy to around 25F.
- Aeonium ciliatum** Succulent w/gray-green leaves in rosettes on stout-stems 4-6' tall & white summer flowers. Full sun(coastal)/light shade. Occasional water. Hardy 25-30 F.
- Aeonium 'Cyclops'** - Giant Red Aeonium Succulent w/red-tinged leaves w/green center in rosettes on 3-4' tall stems. Plant in full sun in well drained soil. Low water needs. Hardy to 25-30F.
- Aeonium decorum 'Berry Nice'** - Red Striped Pinwheel Evergreen branching succulent to 1 ft. tall w/red striped green leaves in 3" rosettes & soft pink flowers. Full sun. Medium/low water needs. Hardy to 30F.
- Aeonium 'Firecracker'** - Firecracker Houseleek Low growing succulent groundcover w/rosettes of red tipped green leaves and yellow flowers in spring. Full sun/light shade. Little H2O. Hardy to 25F.
- Aeonium 'Gary's Shadow'** Succulent 1' tall w/soft fuzzy pale green leaves in rosettes. Full coastal sun/light shade in well drained soil. Irrigate occasionally. Hardy to 25-30F.
- Aeonium haworthii** - Pinwheel Succulent shrub to 2' tall & wide w/rosettes of blue-green leaves & pale yellow flowers. Full coastal sun. Well drained soil. Little h2o. Hardy to 25F.
- Aeonium 'Jack Catlin'** - Red Aeonium Succulent 1-2' tall w/red tinged green leaves in rosettes - red deepens. Full sun. Well drained soil. Irrigate occasionally/little. Hardy to 25-30F.
- Aeonium 'Jolly Towers'**  
Succulent to 1' w/stems covered w/green leaves & yellow flowers in spring when mature. Full sun (coastal)/light shade. Occasional H2O. Hardy to 28F
- Aeonium 'Kiwi'** - Kiwi Aeonium Low growing mound forming succulent with small white, pink and pale green rosettes. Part to full sun. Drought tolerant. Hardy to 25-30 degrees F.
- Aeonium 'Irish Bouquet'** Small succulent to 6-12" tall /small rosettes of green sticky leaves & yellow flowers in spring. Well drained soil. Great small pot plant. Hardy to 30 F.
- Aeonium 'Plum Purdy'** - Plum Purdy Aeonium Succulent to 2-3' tall w/rosettes of plum colored leaves & spring yellow flowers. Full sun in well drained soil. Irrigate occasionally. Hardy to 25-30F.
- Aeonium 'Pseudotabuliforme'** - Green Platters Succulent to 18" tall with shiny green leaves in flat rosettes. Plant in full coastal sun to full/part shade. Occasional water. Hardy to 28 degrees F
- Aeonium 'Purple Queen'** Succulent 2-3' tall w/ large green centered red leafy rosettes & yellow flowers in summer. Part sun. Drought tolerant. Hardy to 25-30 F.
- Aeonium 'Sunburst'** - Copper Pinwheel Succulent to 18" tall w/ 1' wide rosettes of white variegated green leaves edged coppery red. Little irrigation required. Hardy to about 28 F.
- Aeonium undulatum** - Stalked Aeonium Succulent w/green leaves in rosettes on stout-stems to 3' tall. Summer flowers dark yellow. Full sun(coastal)/light shade. Summer water. Hardy 25-30 F.
- Aeonium 'Voodoo'** - Giant Red Aeonium Succulent w/red-tinged green leaves in rosettes on 4-5' tall stems. Plant in full sun in well drained soil. Low water needs. Hardy to 25-30F.
- Agave americana 'Joanna'** - Yellow-banded Century Plant Succulent to 5-6 feet tall by 6-8' wide w/gray leaves with a broad yellow central band. Full sun. Drought tolerant. Hardy to 15 degrees F.
- Agave medio-picta 'Dwarf Alba'** - Dwarf White-Striped Century Plant Medium sized rosette-forming succulent to 2-3' tall by 3-4' wide w/white central variegation. Full sun. Drought tolerant. Hardy to 15 degrees F.
- Agave americana 'Yellow Ribbons'** - Yellow Ribbons Century Plant Large upright succulent rosette to 5-6' tall x 6-8' wide w/long yellow margined gray leaves. Full sun. Drought tolerant. Hardy to 15 degrees F.

# SAN MARCOS GROWERS

**Agave angustifolia 'Marginata'** - Caribbean Agave Succulent to 4' tall & wide w/narrow gray-green w/white margins. Part sun to full (coastal sun). Drought tolerant. Hardy to 20-25 degrees F.

**Agave attenuate** - Fox Tail Agave Succulent rosettes of soft pale green leaves massing to 4-5'+ tall/wide. Arching flower stalks. Full Sun(coastal)/Shade. Drought tolerant. Hardy to 28F.

**Agave att. 'Kara's Stripes' PP19,444** - Variegated Fox Tail Agave Rosettes of yellow leaves w/green stripes. Cool sun/ light shade in well drained soil. Regular/little h2o. Hardy to 28F. Propagation strictly prohibited.

**Agave attenuata 'Nova'** - Blue Fox Tail Agave Succulent rosettes of broad soft gray leaves. Similar to A. attenuata but wider & bluer. Sun/Shade. Drought tolerant. 3-4' x 3-4'. Hardy to 28F.

**Agave attenuata 'AGAVVS' PP21,854** - Ray of Light Fox Tail Agave Succulent rosettes of soft pale green white margined leaves 4-5'+ tall/wide. Arching flwr stalks. Full Sun(coastal)/Shade. Drought tolerant.Hardy to 28F.

**Agave 'Blue Flame'** Clumping succulent w/blue-green rosettes 2 1/2' tall by 3' wide spreading to 6+' wide. Full sun. Little/ regular iH2O Hardy to 25 F. (ISI 2005-6).

**Agave 'Blue Glow'** Clumping succulent to 2' by 3' wide w/rosettes of red margined blue-green leaves. Plant in full sun. Little/ regular irrigation Hardy to at least 20 F.

**Agave 'Blue Glow de Jose'** - Jose's Blue Glow Clumping succulent to 2' by 3' wide w/rosettes of red margined blue-green leaves. Plant in full sun. Little/ regular irrigation Hardy to at least 20 F.

**Agave bracteosa 'Monterrey Frost'** - Frosted Candelabrum Agave Rosettes to 1' tall x 18" wide w/unarmed, curving, pale green leaves edged in white. Slow growth. Drought tolerant. Full sun. Hardy to 20 F

**Agave 'Cornelius'** - Quasimoto Agave Dwarf Century Plant to 18" tall with variegated green & yellow leaves Full sun. Drought tolerant. Hardy to 15 F(AKA A a.'Marginata Aurea Monstrosa')

**Agave ellemeetiana 'Satina'** - Ellemeet's Agave Succulent stemless rosettes 2' tall by 3' wide with short soft gray-green leaves. Full Sun(coastal)/Shade. Occasional irrigation. Hardy to around 30F.

**Agave franzosinii** Large succulent to 8' tall-10' wide with twisting turning white-gray leaves. Full sun. Low water needs. Hardy to 15 F.

**Agave geminiflora** - Twin-flowered Agave Succulent to 2-3 tall and wide w/ narrow green leaves lacking any spines on leaf edge. Cool Sun/Light Shade. Drought tolerant. 25-30 degrees F

**Agave geminiflora 'Leaping Lizards'** - Leaping Lizards Twin-flowered Agave Succulent to 2-3 tall and wide w/ narrow green leaves lacking any spines on leaf edge. Cool Sun/Light Shade. Drought tolerant. 25-30 degrees F

**Agave gypsophila 'Ivory Curls'** - Variegated Gypsum Century Plant Rosette succulent 2-3' tall w/wavy gray-green cream margined leaves. Full sun (coastal)/light shade. Drought tolerant. Protect from frost - hardy to 25F.

**Agave isthmensis** - Dwarf Butterfly Agave Small clustering agave with blue-gray rosettes to 1' wide and tall. Plant in full sun in well drained soil. Little irrigation required. Hardy to 26F.

**Agave lophantha 'Quadricolor'** - Quadricolor Century Plant Small distinctively colored succulent w/pale and dark green, yellow & red leaves. Full to part sun. Well drained soil. Some summer H2O. Hardy to 15F.

**Agave macroacantha 'Pablo's Choice'** - Small Black-spined Agave Succulent w/clumps of rosettes 1' tall x 1-2' wide w/pale gray leaves & brown spines.Well drained soil. Full sun(coastal). Drought tolerant.Hardy to 25F.

**Agave potatorum 'El Camaron'** - El Camarón Butterfly Agave Rosette forming succulent to 1-2' tall x 2-3' wide w white-gray leaves.Full sun.Drought tolerant. Hardy to around 25 degrees F.

**Agave potatorum 'Eye Scream'** - Variegated Butterfly Agave Rosette forming succulent to 8" tall by 12-18" wide w/blue-gray cream margined leaves. Full sun. Drought tolerant. Hardy to around 25 degrees F.

**Agave potatorum 'Kichiokan Marginata'** - Dwarf Variegated Butterfly Agave Rosette forming succulent to 12" tall x 18" wide w/gray leaves margined with cream Full sun. Drought tolerant. Hardy to around 25 degrees F.

**Agave pumila** - Miniature Agave Small dimorphic gray green plant w/squat juvenile form <4" wide maturing slowly to 18" tall open plant. Great in containers. Full sun. Hardy to 20F.

**Agave salmiana 'Green Giant'** - Giant Agave Large succulent with broad green spine margined leaves. Reaches 5-6' tall x 10-13' wide. Full sun. Drought tolerant. Hardy to 18 degrees F.

**Agave salmiana 'Tony's Tiger'** Large succulent w/yellow margined broad green leaves. Reaches 4-6' tall by twice as wide. Full sun. Drought tolerant. Hardy to 18 degrees F.

**Agave salmiana ferox 'Medio Picta'** - Alex's Agave Large succulent with broad green spine margined leaves. Reaches 4' tall x 5' wide. Full sun. Drought tolerant. Hardy to 5 degrees F.

**Agave salmiana var. ferox 'Variegata'** Upright large succulent to 6' w/broad green yellow margined leaves. Full sun. Drought tolerant. Hardy to 15-20 degrees F.

**Agave schidigera 'Shira ito no Oh'** - Queen of White Thread-leaf Agave Small solitary rosettes 1' tall x 18" wide w/dark green leaves w/threaded cream margins & red spines. Sun/light shade. Well drained soils. Hardy to 15 F.

*SAN MARCOS GROWERS*

- Agave sebastiana 'Silver Lining'** - Cedros Island Agave Medium sized agave w/wide gray leaves w/dark margis. Plant in full sun/light shade. Irrigate occasionally/infrequently. Hardy to 25F.
- Agave 'Sharkskin Shoes'** - Northern Sharkskin Agave Stout rosette forming succulent to 2-3' tall by 3-4' wide with thick gray-green leaves. Plant in full sun. Little irrigation needed. Hardy to 20-25 F.
- Agave sisalana forma medio-picta** - Variegated Hemp Agave Medium sized rosette forming succulent 4-6' tall by 6-7' wide w/milky green centered leaves. Full/part sun. Occasional H2O. Hardy to 25F.
- Agave striata 'East of Ramos'** - Maguey Espadín Clustering plant to 2-3' tall with narrow sharp green leaves. Full sun/light shade. Well drained soil. Little/no H2O. Hardy to 0 F.
- Agave striata forma purpurea** - Purple Maguey Espadín Clustering plant 2' x 4-5 wide tall w/narrow sharp pale green leaves flushed purple Full sun/light shade. Well drained soil. Little/no H2O. Hardy to 10.
- Agave striata 'Gray Ghost'** - Gray Espadín Clustering rosettes 1 1/2' tall 1-2' wide w/stiff 1" wide gray leaves. Full sun. Drought tolerant. Likely hardy to around 0 degrees F.
- Agave tequilana 'Lemeno'** - Variegated Tequila Agave Large succulent w/rosettes 5-6' long narrow gray leaves w/pale yellow margins. Well drained soil. Full sun (coastal). Drought tolerant. Hardy to 25F.
- Agave titanota** - Rancho Tambor Agave Solitary rosette succulent to 2' tall x 3' wide w/ghostly white leaves. Plant in full sun in well drained soil. Irrigate occasionally. Hardy to 25F.
- Agave vilmoriniana** - Octopus Agave Succulent with Gray-green rosettes of twisting spineless leaves to 4' tall by 4' wide. Full sun. Drought tolerant. Hardy to 24 degrees F.
- Agave vilmoriniana 'Stained Glass'** - Variegated Octopus Agave Succulent rosettes to 4' tall & wide of gray-green twisting spineless creamy yellow striped leaves. Full sun. Drought tolerant. Hardy to 24 F.
- Agave weberi 'Arizona Star'** - Variegated Weber Agave Medium sized rosette forming succulent to 4' tall by 7' wide with variegated gray-green leaves. Full sun. Low water needs. Hardy to 10 F.
- Agave weberi 'Reiner's Selection'** - Reiner's Agave Medium sized rosette forming succulent 5' tall by 6-10' wide w/gray-green leaves. Full sun. Low water needs. Hardy to 10 F. Selection of A. weberi.
- Aloe arborescens** - Torch Aloe Large shrubby succulent to 6-9' tall & wide w/recurved leaves & coral-red flowers in fall/winter. Full Sun/Light Shade. Drought tolerant. Hardy to 22 F.
- Aloe 'Blue Elf'** Dwarf clumping Aloe with blue-gray foliage to 18" tall and orange flowers winter-spring. Plant in full sun. Little irrigation required. Hardy to 20F.
- Aloe ciliaris var. tidmarshii** - Eastern Cape Climbing Aloe Succulent vine growing w/support to 12' tall or more. Orange-red flowers year-round. Sun/Shade. Drought tolerant. Hardy to 28 degrees F.
- Aloe 'Conejo Flame'** Succulent shrub 3-4' tall & wide w/prominently toothed mid green leaves & winter spring red flowers. Full sun/shade. Occasional/litte H2O Hardy to 25F.
- Aloe 'Cynthia Giddy'** Clumping to 2' tall x 4' wide w/green spotted leaves & branched 3-4' stems of orange-red flowers spring-fall. Sun/shade. Litte H2O. Hardy to at least 25F.
- Aloe 'Delta Lights'** - Delta Lights Aloe Rosette forming succulent 18" tall by 2' wide w/pale greenish white leaves w/zigzagging green bands. Bright light, little H2O. Hardy to around 25F.
- Aloe deltoideodonta 'Sparkler'** - Kelly's Sparkler Aloe Small plant w/short broad white spotted leaves & pink w/white flowers. Full sun/light shade. Occasioanl H2O. Hardiness as yet unknown
- Aloe distans** - Jeweled Aloe Low wide sprawling succulent w/blue-green leaves w/gold spines & coral summer flowers. Well drained soil. Full sun/light shade. Little H2O. Hardy 20F.
- Aloe divaricata** Upright branching shrub to 5-7+' w/green leaves suffused in gray & purple & red flowers in winter. Full sun. Little irrigation. Hardy to 25F.
- Aloe 'Dwarf White'** Small aloe w/narrow gray yellow toothed leaves & fall-winter cream flowers. Full sun/light shade. Little H2O. Hardy to 25F
- Aloe 'Grassy Lassie'** - Grassy Lassie Aloe Succulent to 1' w/narrow green leaves turning bronze in sun & orange flowers to 2' year-round. Sun/light shade. Well drained soil. Likely hardy to 25F.
- Aloe greenii** - Icena Low growing clump form succulentto 18" w/narrow spotted leaves & pink fall flowers. Full sun/ light shade. Regular to little H2O. Hardy to 25F.
- Aloe helena** Small unbranched tree to 13' with long leaves and cream and orange flowers later winter to mid spring. Full sun. Little H2O. Hardy to 30F.
- Aloe 'Hellskloof Bells'** Erect aloe w/gray-green blushed red stubby leaves & pink and orange flowers. Plant in full sun/ light shade. Occasional to infrequent H2O. Hardy to 20F.
- Aloe 'Johnson's Hybrid'** Small succulent to just under 1' tall with narrow upright green leaves and orange flowers. Full sun-light shade. Occasional irrigation. Hardy to 20F.

*SAN MARCOS GROWERS*

- Aloe labworana** - Labwor Hills Aloe                      Stemless aloe to 2' tall w/red tinged blue-green white spotted leaves & yellow flowers in fall. Full sun. Well-drained soil. Little H2O. Hardy to 25F.
- Aloe 'Lode's Yellow'**    Succulent rosettes 2-3' tall w/gray upright large toothed leaves & yellow flowers in spring. Full sun. Drought tolerant. Cold hardy to about 30F or less.
- Aloe lolwensis** - Lake Victoria Aloe                      Rosette forming stemless plant to 1-2' tall with long green leaves & red-pink summer flowers. Full sun Regular irrigation in warm season. Hardy to 28F.
- Aloe lukeana** - Luke's Aloe                                      Rosette forming stemless plant to 1-2' tall with long green leaves & red-pink summer flowers. Full sun Regular irrigation in warm season. Hardy to 28F.
- Aloe maculata 'Jack-O-Lantern'** - Orange Soap Aloe    Low growing succulent w/spotted leaves to 18" tall spreading to 2'+ w/orange fall flowers. Full sun/ light shade. Drought tolerant. 25-30 degrees F.
- Aloe marlothii** - Mountain Aloe                              Large succulent single stemmed Aloe to 10' tall w/branched inflorescence of red-orange flowers in fall-winter. Full sun. Drought tolerant. Hardy to 20F.
- Aloe morijensis**    Upright small shrub aloe w/ short fat leaves along stem and orange & yellow flowers in fall. Full sun/light shade. Little irrigation. Hardy to around 28F.
- Aloe plicatilis** - Fan Aloe                                      Succulent shrub to 3-6+ tall & wide w/fans of flat leaves and red flowers in late winter/ early spring. Full Sun. Drought tolerant. Hardy to 23 degrees F.
- Aloe pluridens** - French Aloe                                  Succulent large shrub to 6-10' tall narrow leaves & salmon-orange flowers fall-winter. Full sun. Well drained soil. Occasional water. Hardy to 28 F.
- Aloe reitzii** - Reitz's Aloe                                      Stemless rosette to 3' tall w/gray-green leaves & upright spikes of red flowers in summer. Full sun. Well drained soil. Drought tolerant. Hardy to 25F.
- Aloe reynoldsii** - Mbashe Aloe                              Rosette forming succulent w/short smooth spotted leaves w/winter-spring golden yellow flowers. Part sun. Well drained soil. Hardy to 27F
- Aloe 'Rooikappie'** - Little Red Riding Hood Aloe      Clumping to 1' tall w/spotted leaves & branched 2' stalks of orange/yellow flowers year round. Full sun/light shade. Occasional H2O. Hardy to at least 25F.
- Aloe 'Safari Rose' PP28,002** - Safari Rose Aloe              Clumping 1' tall w/upright green leaves & pink & salmon flowers winter-spring. Sun/light shade. Occasional water. Hardy to 23F. Propagation Prohibited.
- Aloe Safari Sunrise ['X5'] PP23,267** - Safari Sunrise Aloe      Clumping 1' tall w/thin upright green leaves & pink & white flowers spring-winter. Sun/light shade. Occasional water. Hardy to 21F. Propagation Prohibited
- Aloe x salm-dyckiana** -    Large erect succulent to 8-9' tall with a solitary trunk. Red flowers in late winter into spring. Hybrid of *A. ferox* x *A. arborescens*. Hardy to 25 F.
- Aloe schelpei** - Shelpe's Aloe                                  Low clump forming succulent 2' tall w/blue-green leaves & red/ orange flowers in late fall. Well drained soil. Little to occasional H2O. Hardy to 25 F.
- Aloe Topaz ['LEO 4120']** - Topaz Grass Aloe              Clumping succulent 18" tall with narrow upright green leaves w/pink & orange flowers. Full sun-light shade. Occasional irrigation. Hardy to 25-30 F
- Beschorneria albiflora** - Trunking Beschorneria              Rosette-forming succulent 3' wide w/green leaves & red flowering stems atop 6' stalk. Full sun. Well drained soils. Little H2O needed. Hardy to 16F.
- Beschorneria Flamingo Glow ['Besys']** - Variegated Amole      Succulent to 4-6' tall w/soft gray-green yellow striated leaves & bright green flowers in summer. Full sun. Low water needs. Hardy to 10-15F. PP22,162
- Bulbine frutescens** - Stalked Bulbine                      Succulent groundcover to 1' tall by 3'+ wide w/ yellow flower in spring-summer. Full sun. Low water needs. Hardy to 20-25 degrees F.
- Calibanus hookeri** - Sacamecate                              Succulent with large caudex and gray stiff grassy foliage to 2' tall. Full sun. Low water requirements. Hardy to 10-15 degrees F.
- Crassula arborescens ssp undulatifolia** - Ripple Jade              Succulent shrub w/upright wavy gray leaves & white flowers in spring. Full sun/ light shade. Occasional to little irrigation. Hardy to 20-25F.
- Crassula 'Blue Bird'**    Succulent shrub w/upright gray leaves & white flowers in winter. Perhaps a hybrid of *C. ovata* & *C. arborescens*. Full sun/ light shade Hardy to 20-25F.
- Crassula lactea** - Taylor's Parches                          Low growing succulent 1' tall x 2' wide/short broad mid-green leaves & white flowers in winter. Full sun/shade. Occasional summer water. Hardy to 10F.
- Crassula ovata 'Crosby's Dwarf'**                              Red Dwarf Jade Plant    Succulent shrub to 3-5 tall with green ovate leaves and pink flowers in late fall through winter. Part to full sun. Drought tolerant. Hardy to 26-30F
- Crassula ovata 'Gollum'** - Gollum Jade                      Interesting compact succulent shrub with tubular leaves with a cup-like tip. Plant in bright shade to full sun. Water infrequently. Hardy to 20-25 F.
- Crassula ovata 'Obliqua'** - Variegated Jade Plant              Succulent shrub w/white variegated leaves & white flowers in late fall. Grows to 4-6' tall. Part/full (coastal) sun. Drought tolerant. Hardy to 30-32 F

*SAN MARCOS GROWERS*

**Crassula tetragona** - Miniature Pine Plant Upright evergreen succulent shrub 3-4' tall w/narrow leaves perpendicular to stems & white flowers spring-summer. Little H2O. Hardy to 28F or less.

**Delosperma cooperi** - Purple Ice Plant Low evergreen mat forming plant to 2-3' wide w/ mid-green leaves & purple flowers spring-fall. Full sun/shade. Little H2O. Hardy to around 5F.

**Dyckia 'Jim's Red'** Terrestrial bromeliad with rosettes to 18" wide with red strap leaves. Orange flowers in late summer. Full sun. Little irrigation. Hardy to 15-20 F.

**Dyckia 'Naked Lady'** Terrestrial clustering bromeliad w/1-2' wide rosettes of green spineless leaves & orange flowers in late spring. Cool sun/. Little H2O. Hardy to 15-20 F.

**Dyckia platyphylla** - Wide-leafed Dyckia Terrestrial clustering bromeliad w/1-2' wide rosettes of dark green leaves & yellow-orange flowers in late spring. Cool sun/. Little H2O. Hardy to 15-20 F.

**Dyckia 'Silver Superstar'** Rosette forming succulent w/flattened pink tinged silver leaves w/silver spines. Orange flowers in summer. Low water requirements. Hardy to 20-25 F.

**Echeveria 'Afterglow'** Rosette forming succulent to 1' tall by 12-16" wide w/pink-lavender gray leaves. Full sun/ light shade. Well drained soil. Hardy to at least mid 20's F.

**Echeveria agavoides 'Lipstick'** Rosette forming succulent w/red edged leaves to 6" tall x 1'wide. Red & yellow flowers in spring. Sun (Coastal) /Shade. Low h2o needs. Hardy to 15-20 F.

**Echeveria agavoides 'Maria'** - Wax Agave Rosette forming succulent w/red edged leaves to 1' tall & wide. Red & yellow flowers in spring. Sun (Coastal) /Shade. Low water needs. Hardy to 14 F.

**Echeveria agavoides 'Prolifera'** - Carpet Echeveria Rosette succulent to 1' tall/ wide w/green leaves tinged red & red & yellow flowers in spring. Sun (Coastal) /Shade. Little H2O. Hardy to 15-20 F.

**Echeveria coccinea** - Red Echeveria Succulent 1-2' tall by 2-4' wide w/leafy stems of silver soft hairy leaves & orange-red flowers Winter/Spring. Full sun/shade. Little H2O. Hardy to 25F.

**Echeveria colorata 'Mexican Giant'** - Mexican Giant Echeveria Succulent w/1' wide rosettes of white waxy leaves & orange & yellow flwers. Full sun. Water gently w/o removing wax on leaves. Drought tolerant. 20-25 F.

**Echeveria 'Dondo'** Small clumping rosette forming succulent w/gray-green leaves & orange-yellow flowers winter-spring. Cool sun/light shade. Little H2O. Hardy to 20F.

**Echeveria elegans 'Super Clone'** - Large Mexican Snowball Olive-green to white leaves crowded to form a tight rosette .Bears light pink flowers on inflorescences. Drought tolerant. Part shade. 20-25 degrees F

**Echeveria 'Latte Rose'** - Brown Ghost Plant Succulent with tight rosettes of pale brown leaves. Plant in full coastal sun to bright shade. Well drained soil. Occasional H2O. Hardy to 15-20F.

**Echeveria 'Laulindsa'** Succulent w/1' wide rosettes of gray leaves w/red highlights & salmon flowers. Full sun. Water gently w/o removing wax on leaves. Drought tolerant. 20-25 F.

**Echeveria lilacina** - Ghost Echeveria Slow growing succulent w/ 10" wide flat rosetts of pale gray leaves & coral flowers. Full sun/ light shade. Well drained soil. Hardy to at least mid 20's.

**Echeveria 'Perle Von Nurnberg'** Succulent with 5-6" wide rosettes of pinkish gray-brown leaves & coral pink flowers in summer. Sun/shade. Occasional to regular irrigation. Hardy to 25F.

**Echeveria 'Pulv-oliver'** - Red Echeveria Succulent to 10" tall with fuzzy red tipped leaves and orange & yellow flowers in summer. Sun/ light shade. Drought tolerant. 15-20 degrees F.

**Echeveria 'Ruffled Red'** 1-2' wide rosettes of gray-green leaves w/frilly pink margins on 1-2' stems. Full sun/light shade. Regular/little H2O. Hardy to 25F.

**Echeveria runyonii 'Topsy Turvy'** Forms a mounded rosette of layered, thick, blue leaves. Less than a foot tall. Full sun. Orange flowers in fall. Medium water needs. Hardy to 25 F.

**Euphorbia clandestine** - Volstruisnek Columnar succulent 1-2' tall w/green tuberculed stems topped w/narrow leaves. Spring green flowers. Full sun. Little H2O. Hardy to 20-25 F.

**Euphorbia cotinifolia** - Caribbean Copper Plant Deciduous upright growing shrub/ small to 8-15' tall w/rounded red leaves & white flowers. Full coasal sun. Moderate water. Stems hardy to around 28F.

**Euphorbia lambii** - Tree Euphorbia Evergreen tree. Full sun. Low water needs. Chartreuse flowers in spring. 6-10' tall. 25-30 degrees F.

**Euphorbia leucodendron** - Cat Tails Euphorbia Shrub to 4-6 feet tall (treeform at 12' in habitat) w/cylindrial pale green arching stems. Full sun. Well drained soil. Little/no H2O. Hardy to 25F.

**Euphorbia rigida** - Silver Spurge Small succulent shrub 2' tall x 3' wide with silver leaves and chartreuse flowers late winter-spring. Full/part sun. Little water. Hardy to 0 F.

**Fockea edulis** - Hottentot Bread Vining plant w/ small gray-green leaves & large succulent caudex. Cool sun/light shade in a well drained soil. Occasional summer water. Hardy to 25F.

*SAN MARCOS GROWERS*

**Furcraea foetida** - Green Aloe Succulent with green leaves to 5'. & greenish-white flwr on tall stalk. Part Sun/Light Shade. Low water needs. Hardy to 20-25 degrees F.

**Furcraea foetida 'Mediopicta'** Succulent to 6' tall x 8' wide w/bold cream variegation & tall stalk w/greenish-white flowers. Sun/Light Shade. Low H2O. 20-25 degrees F.

**Furcraea selloa var marginata** Succulent to 5+' tall by 8' wide with variegated leaves and greenish-white flowers. Part sun/Light shade. Low water needs. Hardy to 25-30 degrees F.

**Gasteria bicolor** - Lawyer's Tongue Succulent to 1' tall w/white spotted green leaves & pink flowers in summer. Full sun (coastal) to light shade. Drought tolerant. Hardy to 20 F

**Graptosedum 'Vera Higgins'** Small spreading succulent to 6" tall w/red brown tinged leaves & pale yellow flowers. Sun to light shade. Good drainage, low water. Hardy to low 20'sF.

**Graptoveria 'Opalina'** Succulent w/tight rosettes of thick gray leaves blushed pink w/yellow flowers. Full coastal sun/ light shade. Infrequent irrigation. Hardy to 20 F.

**Kalanchoe beauverdii** - Beauverd's Widow's-thrill Vine w/wiry stems and blackish succulent leaves and red tinged gray-green flowers. Full (coastal) sun. Light shade. Hardy to 25 F.

**Kalanchoe beharensis 'Brown Dwarf'** - Dwarf Velvet Elephant Ear Shrub 4-6' tall w/contorted olive-green, triangular leaves coverer w/brown velvety hairs. Sun/shade. Drought tolerant. Frost tender - protect < 30F.

**Kalanchoe bracteata** - Silver Teaspoons Succulent shrub with white gray oval leaves and red flowers in summer. Full sun. Little irrigation required. Great in pots. Hardy to around 28 F.

**Kalanchoe bracteata forma glabra** - Green Teaspoons Succulent shrub with green oval leaves and red flowers in summer. Full sun. Little irrigation required. Great in pots. Hardy to around 28 F.

**Kalanchoe carnea 'Modoc'** - Big Leaf Kalanchoe Shrubby upright succulent 2-4 ft. tall w/ large light green leaves and pink flowers- grows in shady, dry spots, blooms better in sun. Hardy to 18.

**Kalanchoe 'Fantastic' PP21,945** - Variegated Paddle Plant Succulent to 1-2' tall w/pale yellow flowers on tall stalks. Sun/Light shade. Low-moderate H2O. Hardy to 25-30 F. [K. thyrsiflora, 'Fantastic', Hort.]

**Kalanchoe grandiflora** - Yellow Kalanchoe Upright succulent to 3' with blue-green foliage. Small fragrant yellow flowers in late spring. Water occasionally. Hardy to 28F.

**Kalanchoe luciae** - Paddle Plant Perennial succulent 1-2' tall w/pale yellow flowers on tall stalks. Sun/Light shade. Low-Moderate water needs. 25-30 F. [K. thyrsiflora, Hort.]

**Kalanchoe 'Oak Leaf'** - Dwarf Velvet Plant Shrub to 2 to 3' tall w/gray-white triangular lobed velvety leaves. Sun or shade. Drought tolerant. Hardy to 25F.

**Kalanchoe orgyalis** - Copper Spoons Slow growing shrub 3-6' tall & wide w/cinnamon colored ovate leaves & yellow flowers winter/spring. Full sun/light shade. Drought tolerant. Hardy to 25F.

**Lampranthus 'Hot Flash'** Succulent groundcover <1' tall by 2-3' wide with gray leaves and magenta-pink flowers spring-summer. Full sun/light shade. Little H2O. Hardy to 20-25F.

**x Mangave 'Mayan Queen'** - Mayan Queen Mangave Solitary rosette forming evergreen succulent to 15" tall by 3' wide w/ gray leaves infused w/purple. Full Sun/light shade. Occasional H2O. Hardy to 25?.

**Nolina nelsonii** - Blue Nolina Slow growing tree-like shrub 6-8+' tall w/long thin blue-gray leaves. Matures w/spike of white flowers. Full sun. Well drained soils. Little H2O. Hardy

**Operculicarya decaryi** - Elephant Tree Succulent tree often kept as small bonsai-like plant w/tiny red tinged leaflets. Full sun/light shade. Well drained soil. Little H2O. Hardy to 25F.

**Oscularia caulescens** - Dassievygie Low succulent to 1'x2' wide w/gray leaves and fragrant pink 1/2" wide flowers in late spring. Full sun. Good drainage. Little/ no water. Hardy to 15-18 F.

**Pachyphytum 'Bill Baker'** Groundcover to 12 in. tall w/blue-green rosettes of leaves on upright stems. Red-orange flowers bloom winter to spring. Full sun. Frost tender +-<28F.

**Pedilanthus bracteatus** - Tall Slipper plant Upright succulent to 6-9' tall w/cylindrical stems w/rounded leaves at tips. Reddish flowers in warm month. Full sun. Litte/no water. Hardy to 20-25F

**Portulaca molokiniensis** - 'Ihi Succulent shrub 1' tall & wide w/upright stems of rounded leaves & yellow flowers. Sun/light shade. Well drained soil. Occasioanl summer H2O. Hardy to 25F.

**Portulacaria afra** - Elephant's Food Succulent to 8+' tall (smaller if pruned) w/small leaves & red stems. Lavender flowers rarely present. Sun/Shade. Drought tolerant. Hardy to 25 degrees F.

**Portulacaria afra 'Aurea'** - Yellow Rainbow Bush Succulent low shrub w/small yellow leaves & red stems &small dark lavender flowers in summer when dry. Sun/Shade. Drought tolerant. 25-30 degrees F.

**Portulacaria afra 'Cork Bark'** - Corky Bark Elephant's Food Slow growing succulent w/corky bark & small leaves & red stems. Lavender flowers rarely present. Sun/Shade. Drought tolerant. Hardy to 25 degrees F.

*SAN MARCOS GROWERS*

**Portulacaria afra 'Macrophylla'** - Large Leaf Elephant Food Succulent to 8+' tall w/ 1" leaves & red stems. Pale lavender flowers rarely present. Sun/Shade. Drought tolerant. Hardy to 28 degrees F.

**Portulacaria afra 'Medio-picta'** - Midstripe Rainbow Bush Succulent low shrub w/small white striped leaves & red stems. Lavender flowers rarely present. Sun/Shade. Drought tolerant. 25-30 degrees F.

**Portulacaria afra 'Prostrate Form'** - Dwarf Elephant Food Succulent groundcover to 6" tall x 4-6' w/small leaves & red stems. Lavender flowers rarely present. Sun/Shade. Drought tolerant. 25-30 degrees F.

**Portulacaria afra 'Skyscraper'** - Narrow Elephant's Food Narrow succulent shrub to 8+' tall w/small leaves & red stems. Lavender flowers rarely present. Sun/Shade. Drought tolerant. Hardy to 25 degrees F.

**Portulacaria afra 'Variegata'** - Rainbow Bush Evergreen succulent shrub to 5'-6' tall/ w/yellow & green variegated leaves w/red flush. Full sun/part. Drought tolerant. Hardy to 25F. Great for Bonsai.

**x Sedeveria 'Letizia'** - Lety's Sedeveria Succulent w/deep green rosettes turning red in winter. White flowers in spring. Sun/light shade. Well drained soil. Infrequent irrigation. Hardy to 21F.

**Sedum oxypetalum** - Dwarf Tree Stonecrop Succulent semi-deciduous small shrub w/light peeling bark & red centered yellow flowers. Full sun/shade. Occasional summer water. Hardy to 15-20 F.

**Selenicereus anthonyanus** - Fishbone Cactus Epiphytic cactus w/notched & lobed leaflike flat stems. Fragrant rose-violet flowers spring/summer. Well drained soil. Part sun. Hardy to 30F.

**Senecio amanuensis** - Amani Senecio Succulent 2-4' tall w/soft gray-green leaves & bright orange flowers in summer. Full sun. Drought tolerant. Hardy to 25 F.

**Senecio anteuphorbium** - Swizzle Sticks Shrubby succulent 3-5' tall & wide w/striated pale green stems & yellowish-white flowers. Full sun/light shade. Drought tolerant. Hardy to 25F.

**Senecio crassissimus** - Vertical Leaf Senecio Upright small subshrub to 2' tall w/gray leaves that have purple edges. Yellow daisy flowers in winter. Full sun. Little H2O. Hardy to 28 F.

**Senecio cylindricus** - Narrow-Leaf Chalksticks Succulent to 18-24" tall w/upright blue-green narrow cylindrical leaves & small cream flowers in summer. Full sun. Drought tolerant. 15-20 degrees F.

**Senecio decaryi** - Madagascar Senecio Succulent shrub to 3-5' tall with red marked pale green leaves & orange flowers. Plant in full sun. Occasional to Infrequent irrigation. Hardy to 25F.

**Senecio 'Mount Everest' PP22,188** - Skyscraper Senecio Upright succulent shrub to 2-3' tall x 2' wide w/long blue gray flattened leaves Full sun. Drought tolerant. Hardy to 25 degrees F.

**Senecio mandraliscae** - Kleinia Succulent to 12-18" tall with blue gray cylindrical leaves and dull white flowers in summer. Full sun. Drought tolerant. 15-20 degrees F.

**Tradescantia 'Greenlee'** - Pale Puma Spiderwort Compact perennial 10" tall x 2' wide w/purple green leaves & light violet flowers in late summer. Full sun/ bright shade. Occasional H2O. Hardy to 20-25 F.

**Tradescantia pallida 'Purple Heart'** - Purple Spiderwort Trailing perennial to 1' tall x 2' wide w/dark purple leaves & pink flowers in summer. Full sun/ bright shade. Occasional watering. 20-25 degrees F.

**Tradescantia sillamontana** - Cobweb Spiderwort Evergreen (frost free climates) perennial to 18" tall w/silver leaves & summer magenta flowers. Full sun/shade. Little to Regular H2O. Hardy to 15F.

**Trichodiadema mirabile** - White Vygie Groundcover w/unique cylindrical bristle tipped leaves & 1" wide fragrant white flowers in spring-summer. Full sun. Little H2O. Hardy to 25F.

**Yucca Bright Star 'Walbristar' PP17653** - Bright Star Yucca Succulent w/18" tall by 3' wide rosettes of brightly yellow margined leaves. Plant in full sun. Occasional to regular irrigation. Hardy to 0F.

**Yucca elephantipes 'Variegata'** - Variegated Giant Yucca Large succulent to 15-25' w/strongly variegated leaves & white flowers spring-summer. Full sun. Drought tolerant. Hardy to <15 degrees F.

**Yucca linearifolia** - Linear-leaf Yucca Single trunked plant to 4+' tall w/narrow gray-green leaves. Plant in full sun in well drained soil. Little/no H2O required. Hardy to at least 25 F.

**Yucca rostrata 'Blue Velvet'** - Big Bend Yucca Slow growing succulent w/stems 6-12' tall of 4' wide rosettes of flexible blue-gray leaves. White flowers in spring. Full sun. Drought tolerant. To 0 F.
